Take it to the limit.

The PowerMate 2 is an enhanced version of the APC IV. The full-size AT-compatible PowerMate 2 is the NEC solution for power-hungry users demanding increased speed, storage capacity, and outstanding strength from their desktop system. The PowerMate 2 quickly and easily supports today's intensive applications including CAD/CAM, desktop publishing, financial and scientific modeling, and presentation and publishing graphics. Additionally, with five internal storage device slots, the expansion capability of the PowerMate 2 allows uncompromising users to run demanding software more rapidly than other AT systems of its caliber and class.

386 AT System
- 1.2 MB Floppy Drive
- 512K RAM to 1 MB
- Intel Inboard 386
- Floppy/Hard Drive Controller

No. CAA3001 **$2,999**

Execution.

Did you know that CMO ships 90% of its orders the same or the next day. Our sophisticated mainframe system enables us to achieve efficiencies that have our competition green with envy. CMO provides many important customer services including toll-free ordering, toll-free order status and toll-free customer support. We offer free catalog membership and we don't require our customers to pay money to join a club in order to buy from us. We offer alternative methods of shipping to best suit your needs. For a nominal fee our training technicians will assemble your system, installing boards, drives and other options. We will burn your system in and test it so when you recieve it all you need to do is unbox it and plug it in. Our qualified, courteous sales consultants are ready to serve you. Phone today.
